State of South Carolina and for Flexible)	
Regulation.)	

This matter comes before the Public Service Commission of South Carolina (the "Commission") by way of a request filed by Delta Phones, Inc. ("Delta" or the "Company") to amend its Certificate of Public Convenience and Necessity to reflect that Delta will be provisioning prepaid local services both on a resale basis and by means of the unbundled network elements platform (UNE-P) in South Carolina. Delta was granted a Certificate of Public Convenience and Necessity to provide local exchange telecommunications services within the state of South Carolina on August 21, 2001, by Commission Order No. 2001-748. In this Order, the Commission also granted Delta flexible regulatory treatment for its local services.

By its request, Delta asserts that the Company now intends to provide prepaid local telephone services through the use of resale and UNE-P.

Upon consideration of this matter, the Commission finds and concludes that the Certificate of Public Convenience and Necessity granted to Delta Phones, Inc. should be

amended to reflect that it now has authority to use the unbundled network elements platform (UNE-P) to provide local exchange services in South Carolina.

The Commission's records will hereby reflect the amendment of the Company's authority in South Carolina.

This Order shall remain in full force and effect until further Order of the Commission.

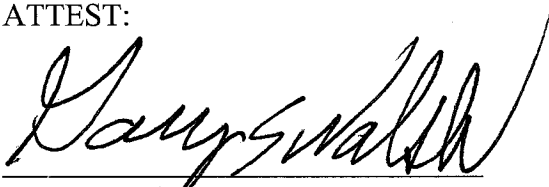

IT IS SO ORDERED.
